

The Tunnel Statistics 2019

19th of November 2019

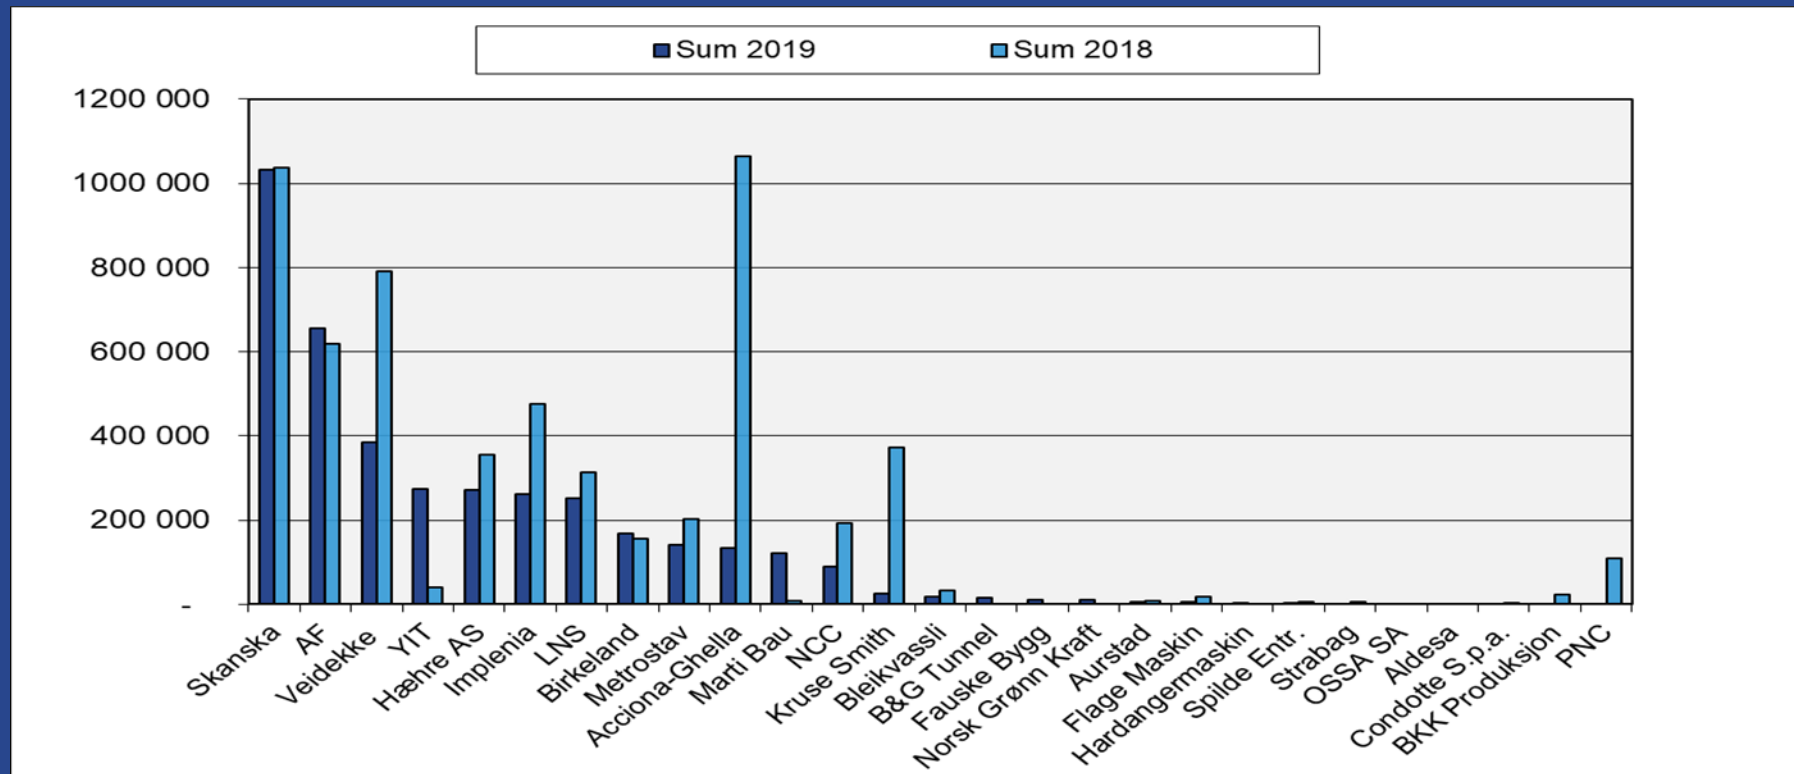

The decrease in 2018 continues, just under 3,9 m³ will be excavated in 2019

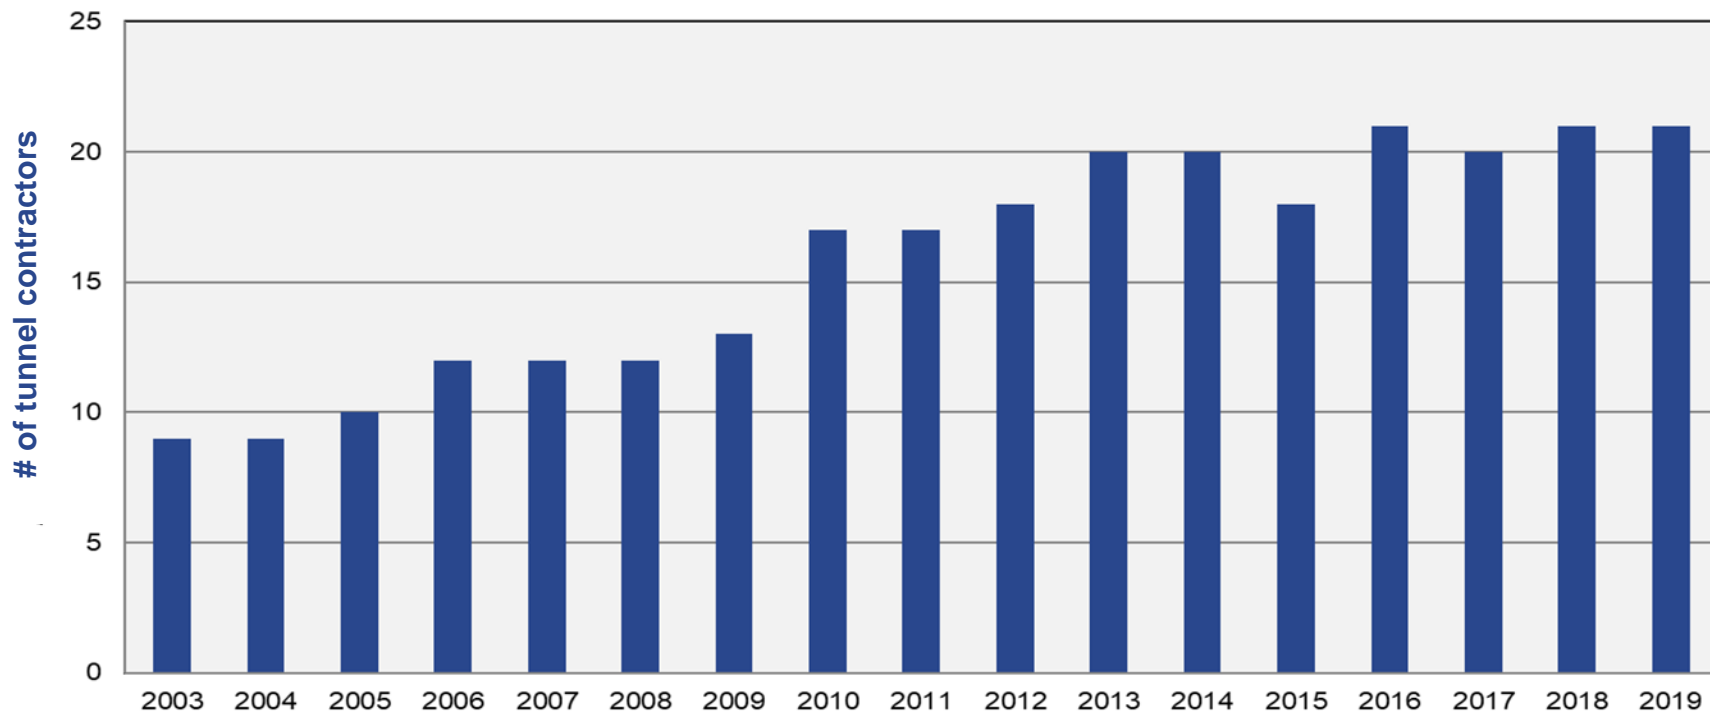

1,46 mill fm³ will be excavated within hydropower and 1,58 fm³ for roadtunnels

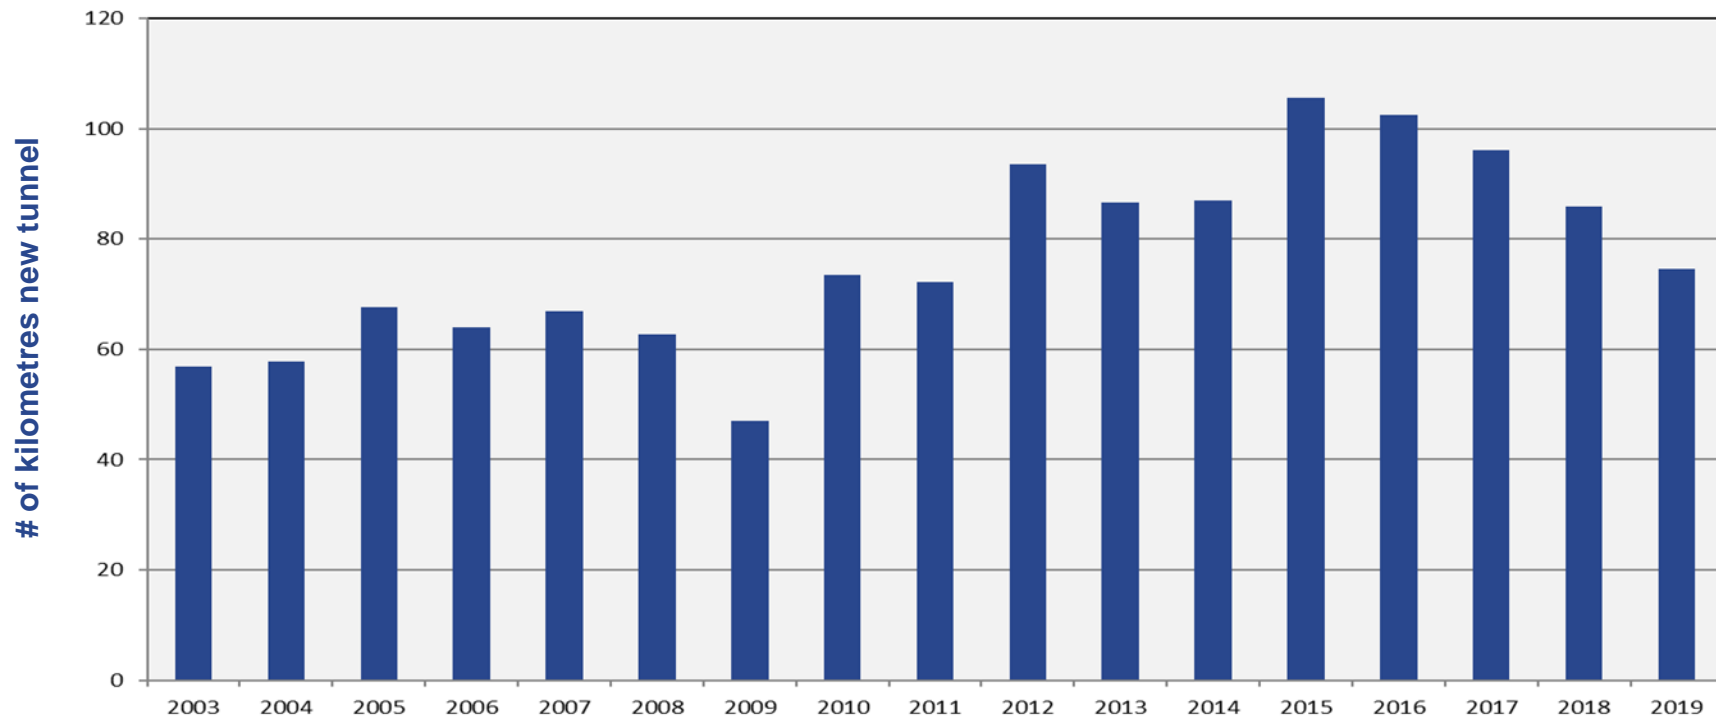

Skanska is back on top and the order has changed for several of the largest contractors

The number of tunnel contractors is stabil, but this years contractors are a bit different than the ones from last year

The decrease in metres new tunnel continues due to lower volume

Decrease in number of metres excavated with TBM in 2019, - Folloline finished in February
