

An aerial photograph of a construction or demolition site. In the center, a yellow excavator is positioned on a dark, muddy surface. To the left, there is a large pile of rubble and debris, including what appears to be a concrete structure. The ground is heavily marked with tire tracks, suggesting heavy machinery movement. The overall scene is in grayscale, with the yellow excavator providing a strong color contrast.

Fra maskindata til verdifull innsikt

Hvordan kunstig intelligens
transformerer anleggsbransjen

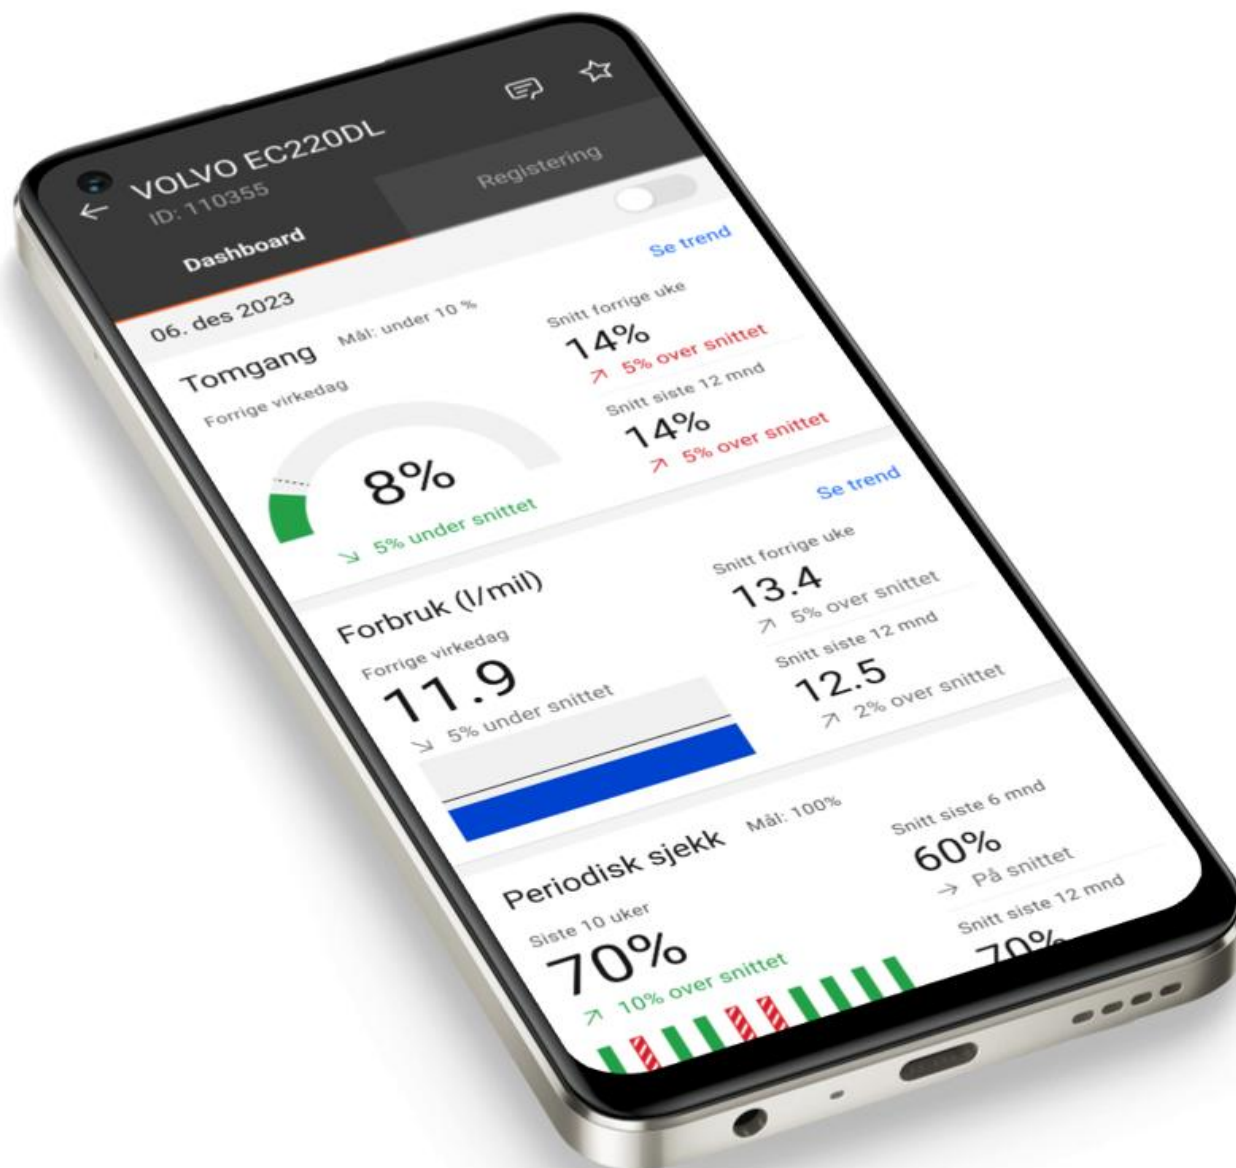

An aerial photograph of a large-scale construction or mining site. The ground is dark and uneven, with various tracks and patterns from heavy machinery. Several yellow and black vehicles, including trucks and excavators, are visible. A large pile of dark material, possibly coal or gravel, is in the upper left. The text is centered in the upper half of the image.
